

## ICTWays in CISTI 2015

For the second year, a ICTways workshop was organized in the scope of the CISTI conference. The 10th Iberian Conference on Information Systems and Technologies, was held between the 17th and 20th of June 2015, at Águeda, Aveiro, Portugal. The ICTWays workshop aimed at showing to the international Information Systems and Technologies Community the developments achieved in the development of the ICTWays network.

The workshop programme included the following presentations:

- Developments to improve teaching with 3D images Manuel Pérez Cota and Miguel Ramón González Castro
- O uso do Scratch nas atividades colaborativas de TIC Ana Pinto and Paula Escudeiro
- O uso de Jogos como Suporte de Aprendizagem Baseada em Problemas Antonio Andrade, David Gouveia, F Nogueira, P Russo and Carlos Vaz de Carvalho
- Design of Multimedia Systems For Children With some kind of Disabilities Diego Heredia and Manuel Pérez Cota

The conference was attended by more than 150 persons, including teachers, researchers and staff of VET and Higher Profession Education Centres, showing high interest in the use of innovative didactics in teaching and the activities of the ICTWays project.

### Local Workshops

**Workshop on “Early Technological Education”**  
By Renata Kondrataviciene  
at Vilnius University

Topics addressed the technological solutions for pre-primary education, developing sharing experiences in kindergarten and educational games suitable for pre-school education

### Local Workshops

**Workshop on “HTML/CSS for Educational Purposes”** By Ricardo Costa at Univ. Portugalense

Topics addressed the use of the web by educational applications as a platform. This workshop showed the state of the art of HTML and CSS for front-end developers and designers in their semantic and presentation components.

### Local Workshops

**Workshop on “Smartboard Applications for Science Classes”** By Levent Yilmaz at ACAL

Although teachers have basic knowledge about how to use smartboards, they have some difficulties in their practice. In this workshop they learned how to create education materials and plans for smartboard applications
